SUMMARY:

Aspiring web developer with a solid foundation in HTML, CSS, and JavaScript, eager to kickstart a career in web development. Strong problem-solving skills and a passion for learning new technologies. Excited to apply my skills and contribute to collaborative projects while continuously enhancing my expertise in web development.

TECHNICAL SKILLS:

- Frontend - HTML5, CSS3, JavaScript
- Database - PostgreSQL, MongoDB
- Version Control – Git
- Programming - python, Java

PROJECTS:

[link] **Personal Portfolio** – Responsive design
Tech Stack: HTML5, CSS3, JavaScript

- Utilized media queries and flexible grid layouts to create a seamless user experience on desktops, tablets, and mobile devices.
- Creating a responsive navigation menu that works well on all devices. Addressed this by using a combination of CSS media queries and JavaScript to toggle the menu.
- Utilized CSS **scroll-behaviour** and JavaScript to implement smooth scrolling, enhancing the user experience by providing seamless navigation through different sections of the website.
- Improved my understanding of how JavaScript can enhance user experience by adding interactive and dynamic elements to the webpage.
- Plan to add a backend using Node.js and Express to handle contact form submissions and dynamically serve project data.

[link] **Currency Converter** – Web Application
Tech Stack: HTML5, CSS3, JavaScript, API's

- Integrated with a currency exchange rate API to provide up-to-date conversion rates.
- Gained experience in integrating and handling third-party APIs, including error handling.
- Designed a clean and intuitive interface using HTML5 and CSS3, ensuring ease of use for all users.
- Improved my understanding of asynchronous JavaScript (promises and async/await) for handling API requests efficiently.
- Integrate functionality for viewing historical exchange rates and trends, providing users with more insightful data.

EDUCATION:

VTU University, Kalaburagi | B.E in Information Science and Engineering | July 2019 - June 2023

CERTIFICATIONS:

- Database Management System | **IIT Kharagpur** | Aug 2023
- Programming in Java | **IIT Kharagpur** | Nov 2023
